**From the President:**

Heat wave, what happened to spring? I hope you are enjoying this weather. I will be going to meet with the other chapter presidents on June 3 and 4 in Dayton, Ohio. This meeting is to go over the chapters "state of the chapters reports" covering:

Membership  
Financial  
Legislative issues  
Education  
Health of the chapter  
Business reports

Our chapter is in good financial shape and we are holding our membership numbers. We were hoping to add to our membership but with the current economic times we are glad to keep our membership even for the year. Our electronic handbook was a big milestone for our chapter and being able to issue CEU's for each meeting was also a big goal for our chapter. Kudos to John Varga for doing a great job.

Now on to more pressing issues. We have a baseball game coming up as well as our Annual Golf Outing. See the attached flyers on time and dates. I look forward to seeing you there!

Our next year's technical sessions are filling up so if you or your colleagues want to make some suggestions on topics please drop us a line. We are always looking for new ideas and topics.

The Northern Ohio Chapter of ASSE gave out awards to the winners of their Annual Apprenticeship Contest. Pictures from the award presentation can be found within the Newsletter. The pictures were taken by Bob Tesar from ASSE. Congratulations once again on your accomplishments and the best of luck in all your future endeavors.

Go tribe and see you in the fall!

Regards,  
Keith Bush CPD, CSI

**From V.P. Technical:**

I would like to thank Rand Ackroyd, with the Plumbing and Drainage Institute for being our guest speakers at the May 11, 2011 training session. The topic of the seminar was Grease Traps and Interceptors. The presentation outlined what is FOG, how does it break down, where does it come from, EPA violations and enforcement, sanitary sewer overflows and responsibility of authority having jurisdiction, myths and facts about grease interceptors, capturing grease, sizing and installation of interceptors, and plumbing code requirements.

If you have any topics of interest that you would like to see next year or know of someone who may be a great speaker for a seminar, please feel free to e-mail me your comments and/or suggestions to [jvarga@sbmce.com](mailto:jvarga@sbmce.com).

Have a great summer!

John A. Varga  
V.P. technical, Cleveland Chapter

Rand Ackroyd  
Plumbing and Drainage Institute

Congratulations to Rand for being the lucky recipient of the prestigious "NOHPE" (Northern Ohio Pinnacle of Excellence) Award presented to him by NOH Chapter of ASSE!

► What do the Beach Boys, Mickey Mouse, and T&S low-lead faucets have in common?

► They all got their start in California, and they all swept the nation. Although California led the way with the AB1953 legislation mandating low-lead faucets, it's only a matter of time until they are required in all states. And T&S is ready — all of our faucets are low-lead compliant and are available across the country. And, as always, T&S faucets are as rugged and reliable as they come, and meet the requirements of the Buy America Act. Contact your sales rep for more information.

Mickey Mouse® and the Beach Boys® are trademarks of Disney Enterprises, Inc. and Brothers Records, Inc. respectively, and T&S Brass has no affiliation with either such entity.

TEMPERATURE CONTROL IN  
AN ELECTRONIC MIXING  
CENTER (EMC) THAT PLAYS  
IT SMART AND SAFE.**

When you actually see it perform live, you'll change the way you think about central hot-water distribution systems. Designed specifically to provide  $\pm 2^{\circ}\text{F}$  recirculation system control during zero-demand idling periods, our EMC also delivers remarkable performance across the full diversity of hot water use. And it has no minimum system draw-off requirement. With remote programming and control features, and building automation system interface capability built into the mixing unit, the EMC offers an unparalleled portfolio of valuable benefits. We don't just say it; we'll prove it to you online. Log on to [www.armstrong-intl.com/aspe](http://www.armstrong-intl.com/aspe) today and sign up for a live guided tour.
